COMMISSIONERS OFFICE.

Montgomery County, Pa.

Norristown, Pa., December 4, 1903.

PRESIDENT OF COMMON COUNCIL.

MY DEAR SIR:—I have been recently advised by the Assessors of the Township of Moreland, this County, that certain property owners have been notified by the Assessors of the adjoining Ward in your City, that hereafter they are to pay their taxes to the City authorities, the City Assessors having returned them for taxation. I understand there are about six or seven properties thus affected. For many years these properties have been assessed as lying and being in the Township of Moreland, County of Montgomery, and with a view of having the matter adjusted, I suggest that the whole matter in controversy be referred to your proper Department, and that under the law we will have the line between the two Counties ascertained and properly marked.

Let me know whether this suggestion meets with your approval, and if it does with whom I should correspond in reference to the matter.

A like letter has been addressed to the President of the Select Council.

Yours very truly,

J. P. H. JENKINS,

(Dict.)

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades of Springfield avenue, from the Germantown and Chestnut Hill Railroad bridge west of Cresheim road to Germantown avenue,” beg leave to report that at present Springfield avenue is laid out upon the City plan fifty feet wide and physically opened thirty-three feet wide in the centre thereof. There are a number of dwelling houses on the north side of the street extending into the line of the present confirmed road. Upon the south side the land is entirely undeveloped, thus permitting the line to be changed and very materially reducing the cost of opening and improving the street. We therefore report the ordinance with a favorable recommendation.

strike from the City plan Franklin street, from Pratt street to the Bustleton and Somerton turnpike," beg leave to report that the object of striking this street from the plan is to make room for a large business plant. To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Highways, to whom was referred the ordinances to authorize the opening of Pratt and Valley streets, beg leave to report that there is now pending before a road jury a proceeding to assess damages by reason of the construction of a sewer along said streets. The claim in many cases is for the entire destruction of the lots, owing to the construction of the sewer and no greater damages can be claimed if the streets at the present time were physically opened. If awards were now made for the construction of the sewer, and the streets are hereafter opened, two awards instead of one will likely be

made. We therefore report the ordinance with a favorable recommendation.

Thos. J. Morton (*Ch'n*), E. P. Macken, C. E. Connell, Alex. M. DeHaven, Thos. Wagner, Jr., J. Chas. Brenner, Arthur D. Brenner, Jesse S. Shepard, Watson D. Upperman, Edw. W. Patton, Jos. M. Adams, W. F. Short, E. Buchholz, Henry R. Shoch, S. E. Pendlebury, Saml. P. Town.

AN ORDINANCE

To authorize the opening of Pratt and Valley streets.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Director of the Department of Public Works be authorized and directed to notify the owners of property over and through which the following streets will pass, that at the expiration of three months from the date of said notice said streets will be required for public use to their full width as now on the City plan, viz.: Pratt street, from Mulberry to Valley street; Valley street, from Pratt to Haworth street.

SECT. 2. The Mayor of the City is hereby authorized and directed to enter security on behalf of the City of Philadelphia for the payment of any damages which may be assessed by reason of the opening of said streets; upon the filing of said bonds, and at the expiration of the said three months, the Director of the Department of Public Works shall forthwith proceed to open said streets.

APPENDIX No. 20.

RESOLUTION

Of request to the Committee on Schools, the Controllors of the First School District of Pennsylvania, commonly called the Board of Public Education, and the Directors of the various school sections of Philadelphia.

WHEREAS, More than ten thousand (10,000) children of school age are through lack of proper school buildings deprived of an elementary education in contravention of the Acts of Assembly making compulsory, an elementary education.

AND WHEREAS, The intention of the legislative body in this Commonwealth in making an appropriation for the maintenance and support of the Common Schools in the First School District of Pennsylvania is in a measure frustrated through the failure of this municipality to provide school accommodations.

AND WHEREAS, The present Ward lines in dividing the First School District works much mischief, and prevents the utilization of all the City's School buildings and if continued may lead to legislative annulment of the special privileges of the First School District of Pennsylvania, and the placing of the Schools under the direct control of the State Superintendent of Education, as is now the rule in the other Counties of this Commonwealth, therefore be it,

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Committee on Schools confer with such Committee of the Controllers of the First School District of Pennsylvania, commonly called the Board of Public Education, and with representatives of the Sectional School Boards, with a view of transferring pupils from the overcrowded schools in any one Section of the City of Philadelphia to those in which rooms are either partly or wholly abandoned in any other Section.

Be it further resolved, That the Committee on Schools be requested to hold such conferences and make a report to these bodies before the annual appropriation bills for the year 1904 are finally considered.

APPENDIX No. 21.

OFFICE OF THE MAYOR.

Philadelphia, October 30, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval an ordinance entitled “An Ordinance authorizing the construction and maintenance by the Philadelphia and Reading Railway Company of a bridge across Delaware avenue, between Willow and Noble streets,” for the following reasons;

While the bridge is desired by the Railway Company for convenience of traffic, and may be a help to the public in that respect, the public interests should be thoroughly guarded in every particular. While the ordinance provides that the right to erect the bridge should be revocable by the passage of an ordinance of Councils, such a right to revoke would, of course, end with the erection of the bridge. Then it goes on to say, “and the same removed when necessity for such action in the public interests demands,” but it says nothing about who shall have the authority to determine when that public necessity exists. The ordinance then goes on to say that “in case of the erection of an elevated railroad on Delaware avenue, the bridge shall be operated in such a manner as to allow of the placing of the proposed elevated structure at no greater elevation than thirty-four feet from the top of the tracks on Delaware avenue.” This may be such a public necessity as would justify the City in having the bridge taken down, and yet the hands of the public would be tied in such case so that it would be impossible to do it.

It seems to me that the ordinance is worded in such a way as to be productive of any quantity of litigation if there is any necessity in the future for the bridge being removed, and it seems to me that the ordinance should provide that the bridge shall be constructed only upon the con-

dition that the Railway Company shall enter into an agreement with the City of Philadelphia to remove the bridge when required to do so by the Councils of the City of Philadelphia by an ordinance to that effect, and to do so within three months of the passage of such ordinance; that would leave it to be determined by the Councils of the City, to whom it should be left, as to when the public necessity arose for removing the bridge across Delaware avenue.

Yours very truly,

JOHN WEAVER,
Mayor.

RESOLUTION

Of request to the Congress of the United States to provide for a deeper channel in the Delaware river and bay and the harbor of Philadelphia.

WHEREAS, Modern ocean going steamers require a draft of water of from thirty to thirty-five feet for the economical transport of merchandise; and

WHEREAS, The present depth of water in the Delaware river prevents the modern ship from loading or unloading at this port, and has in the recent past caused the withdrawal of regular liners from trade to this city; and

WHEREAS, No appropriation by the Congress of the United States has ever been made for harbor or channel improvement until after a Board of Survey of Engineer Officers has passed on the work and accurately estimated the cost of the same; therefore, be it

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Congress of the United States be requested to provide for a re-survey of the Delaware river and bay to provide for a channel not less than thirty-five feet in depth at mean low water, and that in the next river and harbor bill the depth of the channel be changed from thirty feet, as now prevails, and made thirty-five feet.

Be it further resolved, That the Congress of the United States be requested and most respectfully urged by these Councils to make such appropriation as may be necessary to carry into effect the deepening of the channel of the Delaware river and bay from thirty to thirty-five feet, and direct by suitable legislation that continuing contracts be entered into for the completion of this work.

Be it further resolved, That copies of these resolutions be forwarded to the President of the United States, the Secretary of War, the Secretary of Commerce and Navi-

gation, and to all the members of the Senate and House of Representatives of the United States of America.

Be it further resolved, That Joint Rule 30, of the Select and Common Councils of the City of Philadelphia be suspended to submit these resolutions to the Mayor for his approval or disapproval.

AND WHEREAS, We, his colleagues, desire to express our personal sympathy with our President in his illness. Therefore, be it

Resolved, That we the members of this Common Council have learned with much regret that George McCurdy is still confined to his home by illness, and thereby prevented performing the duties of the President of this Chamber.

OFFICE OF THE MAYOR.

Philadelphia, November 18, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval the Ordinance entitled “An Ordinance to strike Kingsessing avenue, from Forty-third to Forty-fifth street, in the Twenty-seventh Ward, from the City plan.”

The Director of Public Works reports to me as follows:

“This portion of Kingsessing avenue comes within the limits of the Clarence H. Clark Park. The avenue is upon the City plan continuously from Forty-second street to the County line and is opened at various places within that distance.

The portion above referred to was opened by jury and is a public highway and has been graded to the confirmed grade.

The maintenance of this avenue upon the City plan will be a benefit to public travel and if suitably paved and planted with shade trees on either side, the retention of it upon the plan will not be a serious detriment to the park purposes.”

I entirely agree with the Director and think that the public interests will be better preserved by the maintenance of the avenue upon the City plan.

Yours very truly,

JOHN WEAVER,
Mayor.

APPENDIX No. 66.

Philadelphia, December 3, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—The Committee on Public Libraries and Museums, to which was referred a message from the Mayor, transmitting a letter from the Board of Trustees of the Free Library of Philadelphia, together with a proposed contract prepared by the Board of Trustees between the City of Philadelphia and the said Board representing Mr. Andrew Carnegie, and which form of contract has been approved by Mr. Carnegie, to provide one and one-half million (1,500,000) dollars to erect thirty Branch Library buildings for Philadelphia, provided sites be obtained and the City agrees to maintain these Branch Libraries at an annual expense of not less than 10 per cent. of their cost. Accompanying said message was a draft of "An Ordinance to authorize the Mayor to execute on the part of the City of Philadelphia an agreement between the City of Philadelphia and the Board of Trustees of the Free Library to carry into effect the offer of Mr. Andrew Carnegie to provide Branch Library buildings for the City of Philadelphia."

At a meeting of the Committee, held June 2, 1903, the message and communication were read, and on motion referred to a sub-committee of five members. Subsequently, the sub-committee reported back the ordinance to the Committee with a favorable recommendation.

The Committee held several meetings and invited Mr. John Thomson, Librarian, and the Board of Trustees of

the Free Library, to meet with the Committee. By request of the Committee, Mr. Thomson presented a statement of Branch Libraries now established in the various parts of the City, showing that there now exist fourteen Branch Libraries which cost for their maintenance annually about four thousand (4,000) dollars each, and that when the fourteen Carnegie Branch Library buildings are constructed, the increased cost will be about one thousand (1,000) dollars each per annum, which will greatly enlarge the facilities, which they undoubtedly will require within the next few years; also, statements of citizens offering twenty-one sites for erection of buildings under the Carnegie offer if offer is accepted by the City, which are hereto annexed.

The Committee gave careful consideration to the offer, and report back the annexed ordinance and ask its passage.

Wilson H. Brown (*Ch'n*), John H. Stokley, Henry H. S. Ogden, William T. Turner, William T. Markee, John F. L. Morris, John Maguire, Alexander Abrahams, Elmer E. Hancock, W. N. Stevenson, Geo. W. Boyer, Jos. H. Brown, Henry Clay, Wm. J. Harrington, Geo. W. Joerger, Wm. Boal.

2. January, 1903.

Negotiations opened providing a site at Broad and Christian streets.

3. March, 1903.

Branch proposed at Broad and Susquehanna avenue, but not likely to come to anything.

4. March, 1903.

Letter from an Improvement Committee and a committee of citizens proposing to donate a site on Baltimore avenue, between Forty-ninth and Fiftieth streets. The matter adjourned until Councils definitely accept Mr. Carnegie's offer.

5. June, 1903.

A lawyer called as to amalgamating an existing library with the Free Library system, to be carried on in a new building if the Carnegie money is accepted by the City. He declined to allow his client's name to be disclosed until matters are in a settled state.

6. January, 1903.

Site offered by Mr. Clarence H. Clark of a piece of land measuring 108 x 170 feet, running from Locust to Irving

street, and between Fortieth and Forty-first streets. Mr. Clark has intimated that he is now receiving offers for the purchase of this land for building purposes, but has agreed to let the matter stand open for a short time longer.

7. January, 1903.

Offer from Messrs. Burnham, Williams & Co. to provide a suitable site for a Branch Library Building "within the limits of the Fifteenth Ward."

8. January, 1903.

Request to provide a Branch Library Building in the Thirty-eighth Ward, at the Falls of Schuylkill, to take the place of a present Travelling Library Depository, on condition that a suitable piece of land is donated by some residents.

9. January, 1903.

Fairhill Reservoir site. Many applications during the year from various persons and Societies urging a library on a piece of the Reservoir site to be allotted for this purpose by the City, on the opposite corner to that on which the Manual Training School is about to be built. Nothing can be done in this matter until it is known whether the Carnegie money will be available.

10. January, 1903.

The Chairman of a Committee of an Association of the Thirty-fourth Ward will offer a site if the Trustees will place a Branch Library Building in that neighborhood.

11. January, 1903.

Offer from a wealthy lady to provide a site near Roxborough if the Carnegie money becomes available for the erection of a building. Her name is not to be disclosed unless the offer is accepted.

12. January, 1903.

Letter from the representative of a wealthy family (whose name I am not free to give at present) that a large

site will be provided in the neighborhood of Germantown and Willow Grove avenues, but the entire matter is directed to be held in abeyance until the acceptance of the Carnegie money is assured.

13. March, 1903.

Third and Christian streets. Negotiations opened for the affiliation with the Free Library System of an existing Library, if a building can be erected on the property belonging to the existing Library. This could be effected in a manner similar to that adopted on the affiliation of the existing Holmesburg, Frankford and Chestnut Hill Branches of the Free Library.

14. January, 1903.

A handsome site offered in the neighborhood of Eighth and Erie avenue, but the matter is not to be made public in any way unless the site is accepted.

15. It is hoped that an arrangement can be made to obtain the assent of the City to the erection of a large annex to the present Branch Library building at Vernon Park, Germantown, to comprise a lecture room and other conveniences which will make this a good working Branch and be of much use in the neighborhood.

16. It is hoped that an arrangement can be made to obtain the assent of the City to the erection of a large annex to the present Branch Library building at McPherson Park, Indiana avenue and F street, to comprise a lecture room and other conveniences, which will make this a good working Branch and be of much use in the neighborhood.

17. Oak lane. A member of one of the large manufacturing companies stated that his family were proposing to donate a piece of land 250 x 250 feet, but nothing may be announced about the matter until it is known that the proposition will be carried out.

18. Another offer of the Oak lane district has been made of a piece of land costing \$10,000, to be donated as a site, together with a sum of money sufficient to stock it

with books and a small sum of money to be subscribed towards its maintenance for a limited number of years until the Branch is fully established.

19. A member of a large manufacturing firm in the neighborhood of Paschalville is willing to negotiate for the donation of a site for a new Branch Library building if the money for the erection of the building itself is assured.

20. Offer from a prominent banker to donate enough land as a site for a Branch Library building. Nothing more is to be announced until the Carnegie money is assured, when the matter will be taken up again.

21. A large site has been offered in Torresdale, but the owners will not permit the proposition to be made public until the Carnegie matter is adjusted and the money to erect the building is in sight.

22. A valuable piece of land with from two to three hundred feet frontage offered by a large firm at Tacony, which would involve the affiliation of an existing Library. A payment of \$500 a year towards its maintenance is also to be part of the gift. This matter is not to be made public until the donors give their assent to its being announced.

23. A committee of gentlemen in the neighborhood of Wissinoming desire to have a Branch to serve that locality and are willing to provide the funds for the purchase and donation of a site if the Trustees think proper to accept same and if the Carnegie money shall be available for the erection of a building.

24. A well-known public-spirited citizen says that from his personal regard to Mr. Carnegie if the latter's gift is accepted he will give a piece of land, but no mention of this is to be made until matters are finally adjusted between the City and Mr. Carnegie. If the gift is accepted the land will thereupon be donated, but the Trustees may take their own time as to when the building shall be erected.

In the above statement mention is made only of those offers of sites which have been the subject of direct cor-

respondence or interviews. Other and perhaps more valuable offers have been suggested, but in each case the families proposing to make the donation or those who represent them, said they would rather the matter were not brought forward in any way so that it would become public, unless there was a reasonable chance of the matter being carried out.

APPENDIX No. 75.

OFFICE OF THE MAYOR.

Philadelphia, December 17, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—For the past few months I have been investigating the question of insurance on City properties, and I find that last year the City paid out upwards of twenty-five thousand (25,000) dollars in insurance premiums and that the City has tied up in premiums on perpetual policies of insurance on various buildings about ninety thousand (90,000) dollars. We have collected from Insurance Companies during the past five years less than one thousand (1,000) dollars for fires in City properties. I am quite sure that it is unnecessary for us to carry insurance on a number of the properties that we are now carrying them on. We are carrying about one hundred thousand (100,000) dollars of insurance in perpetual policies and term policies on police stations and fire houses. We do not carry any fire insurance on the City Hall, and it

has occurred to me that it would be a good thing for the City of Philadelphia to practically do its own insurance; that is, to transfer to the Sinking Fund Commissioners, or some other body, so that it could be held in a fund to be known as "Insurance Fund" money that is now invested in perpetual policies, and the money that would otherwise be paid from time to time in premiums on term policies, so that this fund could be invested in some way until it had accumulated to say two hundred and fifty thousand dollars, or such other sum as your Honorable Bodies should, in your wisdom, determine, which could be held to meet losses by fire, and the balance of the accumulation could be used from time to time in retiring the City debt. I believe that considerable money could be saved in this way.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 76.

OFFICE OF THE MAYOR.

Philadelphia, December 17, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to transmit herewith a proposition made to me by Mr. John D. Pessano, relative to the disposal of the garbage of the City of Philadelphia. I have had some correspondence with the gentleman since the date of his letter and have been giving the matter careful consideration. He informs me that the gentlemen who were interested in the proposition would be willing to give a good and sufficient bond for the faithful performance of their part of the proposition.

I should be very glad if your Honorable Bodies would refer this matter to the proper committee that they could

investigate it and call before them the parties interested in the proposition as, if such money can be saved to the City of Philadelphia, it should be done. I might suggest, however, that if any action should be taken on the proposition that it might be well to arrange that the company should collect the garbage itself, and pay the City therefor the margin mentioned, so that there could be no question about the cost of collection.

Yours very truly,

JOHN WEAVER,

Mayor.

Philadelphia, October 12, 1903.

HON. JOHN WEAVER,

Mayor of Philadelphia.

DEAR MAYOR WEAVER:—Referring to and in confirmation of our conversation of the 9th instant regarding the "garbage question" of the City of Philadelphia, permit me to state the following facts:

The City of Philadelphia has been paying for years past at the rate of \$1.75 per ton for the collection and removal of its garbage.

The experience of other cities shows that the same work can be done for \$0.60 per ton in a thoroughly satisfactory manner.

The total cost to the City in 1901 for 252,238 tons was \$440,833.

The total cost to the City in 1902 for 279,333 tons was \$488,830.

The contract for 1903 is awarded at \$516,700, and upon this there may be some little saving. (This will run about 300,000 tons.)

It is fair to calculate that 1904 will run 340,000 tons and that the cost to the City will be \$595,000 upon the present basis.

It is also fair to assume that 1905 will, according to the ratio of increase, amount to 380,000 tons and would cost the City to remove on present basis \$646,000.

A glance at the contract now in use and the law will convince you that competition for 1904 is almost effectively denied excepting to those who now have plants erected by reason of the following conditions:

(a) The clause in the contract which *prevents* the construction of a plant.

(b) The fact that if this can be overcome (and a reference to it hereinafter will, I think, convince you that it can) a plant could not be erected in time to remove the garbage by incineration or otherwise after its collection.

The present process is offensive in the extreme to those living within breathing distance of the plants and hence the wise provision for the protection of the public against the erection of *similar* plants.

The dead animals (horses, etc.) cost the City money to remove.

There should be legislation against selling diseased meats and compelling its *destruction* upon condemnation by inspectors.

From the garbage, dead animals, diseased meats and meat offal money can be made by legitimate business enterprise.

We control the only process by which these offensive articles can be reduced at a profit to the enterprise and at the same time *absolutely without polluting the atmosphere with offensive odors*.

It is a tried system and process and not an experiment.

The City of Philadelphia should receive money instead of expending money in this matter and this will lead to other more important savings to be suggested by the same process in disposing of the sewage when experiments now in progress have developed to the point of assured success. We can reduce these materials absolutely without offense or odor and that fact should warrant the permission to erect a plant in almost any part of the City.

Based upon the above which we have endeavored to make full and explicit, we suggest on behalf of our principals the following:

That if by proper ordinance a franchise can be granted to a corporation (which we will undertake to form) for 30 years, from January 1, 1905, on the lines that the City collect and deliver to the plant of said corporation all the City garbage and dead animals (and here can be incinerated diseased meat, if possible), provided said corporation shall or or before November 1, 1904, have erected a plant for the purpose, otherwise the ordinance to be void and of no effect, we are willing that there shall be embraced in said ordinance any of the following conditions:

That the corporation shall erect a plant to cost not less than \$1,500,000.

That the corporation shall pay to the City \$1 per ton for each ton of garbage delivered to the plant.

That the corporation shall pay to the City \$3 per carcass for each dead horse delivered to the plant.

That the corporation shall incinerate the diseased meat free of expense to the City and pay therefor the market price of said material by the pound.

That the corporation shall create a reserve fund with a strong financial institution which will keep the plant in good working order, retire the bonded indebtedness and the stock of the company at its face value, and shall at the end of 30 years deed the plant in fee simple to the City of Philadelphia free and clear of all debt.

That the corporation shall pay at least 5% on its bond issue.

As an evidence of the full scope of adopting such a process as this the City in 1905 will save as follows, based on the following estimate:

Say 380,000 tons of garbage will cost on present	
basis to remove	\$636,000
We pay for same at \$1 per ton.....	\$380,000
The cost to collect at a high price should	
not exceed 75c. per ton on 380,000	
tons	285,000
	<hr/>
	95,000
Total gain to City	\$731,000

It will be observed that dead animals and diseased meats are *not* included in the above calculations. *This will increase the figures.*

The garbage tonnage increases yearly and with this accretion of tonnage *comes an increase each year during the life of the franchise of 30 years in the money to be paid to the City.*

Sincerely yours,

JOHN D. PESSANO & CO.

APPENDIX No. 77.

OFFICE OF THE MAYOR.

Philadelphia, December 15, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith, without my approval, an ordinance entitled “An Ordinance to provide for an increase of indebtedness in the amount of sixteen million (16,000,000) dollars, for the improvement, extension and filtration of the water supply; for the purchase of new sites and the erection of new public school houses; for the erection of hospital buildings for contagious diseases; for the erection of buildings for home for the indigent; for the construction of main and branch sewers; for the erection of new bridges; for the repaving with improved pavement streets not occupied by passenger railways; paving intersections and grading streets; for continuing the improvement of the Boulevard, from Broad street northeastward; for acquiring property and improvement of parkway, from City Hall to Fairmount Park; for the improvement of Broad street, from Moyamensing avenue southward, and other parkways in the southern section of the City; for the purchase of sites and the erection of police, patrol and fire houses, and for the removal of grade crossings, and authorizing the submission to a vote of the people and fix-

ing the day of holding an election for the purpose of obtaining the assent of the electors to the said increase of indebtedness and authorizing the corporate authorities of the City of Philadelphia to make the necessary announcement by public advertisement to the electors, and directing the City Commissioners to prepare and distribute the necessary ballots as provided in the Laws of Pennsylvania governing the increase of the indebtedness of municipalities," for several reasons:

First—I think that separate ordinances should be drawn for each item provided for in the loan bill, so that the electors of the City of Philadelphia shall have the right on election day to say "yes" or "no" on each item, and not be compelled to vote on the entire \$16,000,000 as a whole; and it seems to me there is sufficient time, if this bill is amended immediately, to have such ordinances passed in time to have them disposed of by the Executive so that they may be passed upon at the February election.

Second—While a large number of the items I should certainly approve of from an individual standpoint, I feel that I should not set up my judgment against the electors of the City, but that they should be given an opportunity to vote on these particular subjects.

Third—I could not approve in this ordinance of the \$1,000,000 for continuing the improvement of the boulevard from Broad street northeastward, as I have not been able to see any public necessity for this boulevard. It is laid out for over ten miles through farm land in the north-eastern section of the City.

I have had an approximation made of the cost of building the boulevard from Broad street to Second street, a distance of 6,500 feet, and I find, from a report placed in my hands to-day by the Department of Public Works, that to build this 6,500 feet would cost \$967,166.83. The total length of the projected boulevard is about eight and a half times more than this, and this approximation does not include the price to be paid for property taken for the boulevard, which will amount to about 400 acres and will have to be paid for when the road jury has assessed the value of that property.

When the ordinance was passed to add a number of acres to Hunting Park, through which the boulevard extends, inquiries that I made developed the fact that the owners of that property were asking \$5,500 to \$6,000 an acre. While that value could not possibly extend the entire length of the boulevard, and may not be the real value of the property, it is some indication as to what they are asking.

And I might also call your attention to the fact that the property through which the boulevard is laid out is entirely suburban property, paying suburban taxes. The cost of the building of the 6,500 feet out of the total length of 55,440 feet, as given above, includes \$150,000 for a bridge over the North Penn Railroad, but I find that in building the other part of the projected boulevard, a distance of 48,940 feet east of Second street, there would be five other railroads and several creeks to cross with bridges.

The more consideration I give to this subject the more and more I am convinced that we should not build the boulevard at this time, and should not borrow any money for the purpose of continuing its construction when there are so many other absolutely essential things that we need the money for.

We must complete the filtration system, which, I am informed, will take at least \$8,000,000 to complete. The money provided for in the lean bill for the purchase of sites and the erection of schools is absolutely essential for the cause of education, and money is needed for the other improvements mentioned in the bill.

The money for the improvement of Broad street, from Moyamensing avenue south is, I think, necessary, as the present condition of Broad street below Moyamensing avenue and running to the navy yard at League Island is a disgrace to the City, and should be improved at the earliest possible moment.

The parkway from the City Hall to the Green street entrance of the Park is something that I am personally in favor of, but I think, as stated above, this should go to the people for their final determination in a separate ordinance, as should the other matters.

If, in the wisdom of your Honorable Bodies, you should

not consider that you can amend this ordinance so as to provide for separate items for the people to vote on, if it can be so amended to strike out the \$1,000,000 for the northeast boulevard or transfer that \$1,000,000 to the filtration, to the public schools, or to the abolition of grade crossings, or divide it up among those three items, I will immediately sign such amended ordinance, although I should very much prefer to see the ordinance divided into as many ordinances as there are subject matters dealt with, and permit the people of Philadelphia to vote on each subject separately.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 96.

OFFICE OF THE MAYOR.

Philadelphia, January 6, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval an ordinance entitled "An Ordinance selecting plot of ground bounded by Broad street, York road, Fisher's lane and Tabor street, in the Forty-second Ward, as an open public place for the health and enjoyment of the people."

I am reluctantly compelled to do this because while I believe the public institutions in the vicinity might be benefited by having this narrow strip of ground between Broad street and York Turnpike road made into a park,

careful investigation of the City's finances forces me to the conclusion that we cannot take it now.

Last year the City Controller reserved for mandamuses one million five hundred thousand dollars. The payments last year were about two millions, or five hundred thousand dollars in excess of expectation. This year, while we have only one million five hundred thousand dollars reserved for mandamuses, it will certainly exceed that amount, from the report I have of the pending cases in the City Solicitor's office, and if the building of the Northeast Boulevard goes on, the payments on mandamuses may reach three millions.

It will therefore be necessary for us to be careful of the taking of property for any purposes during this year, where the money is not already provided, whether for parks, opening of streets, etc., or authorizing change of grades where damages will enure to property owners.

Very truly yours,

JOHN WEAVER,

Mayor.

The original ordinance provided that any owners of property on Oakdale street and Aramingo avenue, from Le-

high avenue to Cumberland street, who shall file an agreement releasing the City from damages by reason of the opening of said streets shall be exempt from all charges for municipal improvements, and the purpose of this ordinance is to include Tulip street, Memphis street, Cedar street, Chatham street, Gaul street, Monmouth street and Birch street in this proviso, and to exempt the owners of property on the said streets from all charges for municipal improvements

I think this is a very unwise plan. If we can exempt the property owners on one street from the payment of all charges for municipal improvements, why should it not be done on all streets? And I am firmly of the opinion that if any streets are opened which result in net damage to the property owner that that should be determined and paid without reference whatever to the municipal improvements, which should, under all circumstances and at all times, be charged against the properties. If streets are opened for building purposes at the request of the owner of the land, he should be willing to dedicate the ground necessary for the streets, as I have no doubt that the opening of such streets would more than compensate him in the increase of value to his property, and as a general rule the operators are only too glad to do this and to pay for the municipal improvements on the streets.

Yours very truly,

JOHN WEAVER,

Mayor.

OFFICE OF THE MAYOR.

Philadelphia, December 30, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval the ordinance entitled "An Ordinance designating certain Trust Companies as depositories of the City's money."

I have withheld my approval to this ordinance because several Trust Companies not mentioned in the ordinance, and of great financial responsibility, have requested to be designated as depositories of City monies, and I understand it is proposed to introduce separate ordinances into Councils to have some of them so designated. If it is wise to have City monies deposited in Trust Companies, and I am inclined to think it is as the deposits in some of the National Banks, I understand, has far exceeded the limit placed thereon by the ordinance of the ninth of April, 1892, I think that all the strong Trust Companies should be named in one ordinance and thus save the expense attached to the passage of several ordinances for the same purpose, and if any policy of exclusion is to be adopted I would suggest that it be based upon the amount of capital and surplus of the respective Trust Companies. I certainly think it is wise that the public funds should be distributed amongst financial institutions as much as possible so as not to have too large an amount in any one institution.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 99.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to return herewith “An Ordinance to make an appropriation to the Department of Public Works, for the year, 1904,” without my approval as to the following:

Section 4, Item 1, \$400.00 of the \$2,200.00 to pay the salary of the superintendent of bridges.

Section 6, Item 1, \$1,000.00 of the \$5,000.00 appropriated for the salary of the Chief of the Bureau of Street Cleaning.

Section 8, Item 1, \$200.00 of the \$1,200.00 appropriated to pay the assistant to the general superintendent; \$3,840.00 of the \$69,600.00 appropriated to pay eighty-seven oilers at \$800.00 each; \$6,100.00 of the \$103,200.00 appropriated to pay one hundred and twenty-nine firemen at \$800.00 each; \$2,480.00 of the \$41,040.00 appropriated to pay fifty-seven coal passers at \$720.00 each; \$2,625.00 of the \$27,650.00 appropriated to pay thirty-five watchmen at \$750.00; Item 15, for buildings and fences for the 7th District on lot Parkside avenue and Forty-eighth street, \$9,000.00, making the total amount disapproved in this bill, \$25,645.00.

My reason for the disapproval of these items is that the Director of Public Works informs me that he has not asked for any of the increases or for any of the items that I have disapproved. We cannot be too careful about the increase of expenses in the various departments of the municipality, and I think that we are entirely safe in refusing to do so where the chief of the bureau or the head of the department has not made a request to have this done.

In regard to the salary of the Chief of the Bureau of Street Cleaning, the present Chief has shown himself a very efficient head of that department, and while I have disapproved of \$1,000.00 of the \$5,000.00 appropriated for him, I think he should be paid \$4,000.00 a year, the same as the Chief of the Bureau of Highways.

The balance of the bill I approve.

Yours very truly,

JOHN WEAVER,

Mayor.

APPENDIX No. 100.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to return herewith "An Ordinance to make an appropriation to the Coroner, for the year 1904," without my approval to that part of Item 1 that appropriates four thousand dollars to pay a chief physician.

I also disapprove of twenty-four hundred dollars of that part of Item 1 that appropriates ninety-six hundred dollars for eight District Deputies.

My signature is withheld from these two parts of Item 1 because I can see no reason for increasing the expenses of this Department for wages eight thousand dollars a year, as is provided in Item 1 for 1904, over past years. The item of four thousand dollars for chief physician appears to be entirely new, and the item of ninety-six hundred dollars for eight District Deputies at twelve hundred dollars a year each as against four District Deputies at one thousand dollars each and wagon driver in 1903 at two thousand dollars.

Taking into consideration the increase of the business in the Coroner's Department, I cannot understand how it would be necessary to double the force and more than double the salaries of District Deputies in one year, nor can I see the necessity of making a chief physician over two others. If the work of the Department should require another physician I should think it would be best to appoint another one at the same salary.

The increase of salaries in the various City departments are becoming very alarming, and in the interest of an economic administration of the City's affairs I am compelled to disapprove the parts of the ordinance that I have referred to. The balance of the bill I approve.

Yours very truly,

JOHN WEAVER,
Mayor.

APPENDIX No. 101.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith the Ordinance entitled “An Ordinance to make an appropriation to the Department of City Treasurer, for the year 1904,” **without my** approval to so much of Item 1 as provides for one hundred dollars of the fourteen hundred dollars to pay the second assistant paying teller; two hundred dollars of the fourteen hundred dollars appropriated to pay the assistant bookkeeper; two hundred and fifty dollars of the seven-teen hundred and fifty dollars appropriated to pay the State Clerk; two hundred dollars of the twelve hundred dollars appropriated to pay the assistant State Clerk, and one thousand dollars appropriated to pay a special officer, making a total of seventeen hundred and fifty dollars disapproved in this item.

I withhold my approval from these parts of Item 1 because they are all new and increases over last year. The thousand dollars for the special officer is entirely new, and I do not see any such necessity for a special officer in the City Treasurer’s office. If there should be such a necessity, the Department of Public Safety can detail either a City Hall guard or a patrolman for duty in the City Treasurer’s office.

In regard to the increases of salary it is my belief that the expenses of the City Government in a great many of the departments are increasing entirely out of proportion to the increase of the work, and in the interest of an economic administration of the City Government I am compelled to disapprove of these items. The balance of the bill I approve.

Yours very truly,

JOHN WEAVER,
Mayor.

APPENDIX No. 102.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith an Ordinance entitled “An Ordinance to make an appropriation to the Commissioners of Fairmount Park,” without my approval as to that part of Section 1, Item 1, that appropriates \$1,000.00 to pay the salary of assistant in charge of the speedway, and without my approval to the whole of Item 24, appropriating \$50,000.00 for the completion of the speedway, &c.

I have disapproved these items for the following reasons:

The position of assistant in charge of the speedway is entirely new, and I understand that the Park Commission did not make any request for this, and I see no reason why the regular employees of the Park Commission cannot take charge of this part of the drives of the Park as well as the others.

In regard to the \$50,000.00 for completing the speedway, &c., I understand that the Park Commissioners have already spent \$160,000.00 on this short drive, only one mile and a quarter in length, and while, of course, it will be necessary to entirely complete it, I feel that the City needs the money for more urgent purposes at the present time; in addition to which the Park Commissioners hold land outside of the Park limits worth, I should say, several hundred thousand dollars, which has been entirely unproductive for years, is not now used, and never will be for Park purposes, and a request from a Committee of Councils during the past two or three months to be permitted to use a part of this land for a school site was met by the Park Commission with refusal on the ground that they, as Commissioners of Fairmount Park, had no right to part with any property, and not even permit the City of Philadelphia to use it, whose money paid for it and in

whose name it still remains, unless they, the Park Commission, receive a full equivalent therefor, and they do not appear to recognize the hundreds of thousands of dollars annually appropriated for improvements, or the hundreds of thousands of dollars that have been paid by mandamuses for land taken to enlarge the Park, to be such an equivalent.

It therefore occurs to me that if this is the law, some way must be found for realizing upon this unproductive asset that is not part of the Park, and yet held by the Park Commission, so that its proceeds may be used for the permanent improvement in the Park, and thus permit the moneys that would otherwise be appropriated for such permanent improvement to be used for the acquisition of school sites and other things in the different Departments of the City government. The balance of the bill I approve.

Yours very truly,

JOHN WEAVER,
Mayor.

APPENDIX No. 103.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to return herewith an ordinance entitled "An Ordinance to make an appropriation to the Board of Public Education, for the year 1904" without my approval as to \$26,485.89 of the \$306,265.00 appropriated in Item 6, Section 1, for the salaries of janitors, being ten per cent. of the amount paid to janitors in 1903.

I disapprove of this item because the Board of Education inform me that they did not ask for it, and in view of the large amount of increases in the salary item in this department in this bill, I cannot see my way clear to ap-

prove of this item of an increase of ten per cent. in the salaries of all the janitors without reference to how they are paid or the work that they are doing. I have obtained a list of the janitors and I find that they are paid running all the way from \$120.00 a year to \$1,800.00 a year.

The balance of the bill I approve.

Yours very truly,

JOHN WEAVER,
Mayor.

APPENDIX No. 104.

OFFICE OF THE MAYOR.

Philadelphia, December 31, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I have the honor to return herewith an ordinance entitled "An Ordinance to make an appropriation to the Department of Public Safety, for the year 1904," without my approval of the following:

Section 2. Item 1, \$300.00 of the \$1,200.00 for the salary of the storehouse clerk; \$600.00 of the \$3,000.00 appropriated for the salaries of two assistant fire marshals at \$1,500.00 each; \$900.00 of the \$10,800.00 appropriated for the salaries of nine engineers at the rate of \$1,200.00 each; \$550.00 of the \$13,200.00 appropriated for the salaries of eleven pilots at \$1,200.00 each; \$875.00 of the \$10,000.00 appropriated to pay the salaries of ten firemen at \$1,000.00 each.

Section 3. Item 1, \$100.00 of the \$1,200.00 appropriated to pay the foreman of the gas works, and Item 5, Section 3, \$4,000.00 of the \$10,000.00 for maintaining and extending gas works; Section 3, the whole of Item 8, for repairs to building and furniture, \$600.00.

Section 5. Item 1, \$1,100.00 of the \$5,500.00 appropriated for the payment of five electrical plumbers at

\$1,100.00 each, and \$40.00 of the \$200.00 appropriated for the uniforms for the said five electrical plumbers.

Section 7. Item 1, \$100.00 of the \$800.00 appropriated for the salary of messenger.

Section 8. Item 1, \$100.00 of the \$1,000.00 appropriated for the salary of a clerk; \$220.00 of the \$720.00 appropriated for the payment of a typewriter; \$720.00 appropriated for the payment of a janitress superintendent; \$100.00 of the \$700.00 appropriated for the salary of the superintendent of Germantown Hall; \$100.00 of the \$1,000.00 appropriated for the payment of the superintendent of the City Morgue; \$300.00 of the \$1,200.00 appropriated to pay the engineer at the City Morgue, making a total amount disapproved of in this bill of \$10,705.00.

I have disapproved of these items because they are all increases over 1903, and the Director of the Department of Public Safety informs me that he did not request them. In some cases they are increases of salaries; in others, they are entirely new positions created, but in each instance the Director informs me that they were not asked for by his department, and as I have already said, we must be careful in increasing the running expenses of the municipality.

The balance of the bill I approve.

Yours very truly,

JOHN WEAVER,
Mayor.

GENTLEMEN:—I have the honor to transmit herewith a resolution adopted by the Board of Health in regard to the placing of a sewer on Springfield avenue, from Ger-

BOARD OF HEALTH.

Philadelphia, December 23, 1903.

DR. EDWARD MARTIN,

Director, Department of Public Health and Charities.

DEAR SIR:—I am directed by the Board of Health to transmit to you the following copy of resolution passed this date, with the request that you forward the same to the City Councils.

Respectfully yours,

JOHN J. McCAY,
Chief Clerk.

Resolved, That City Councils be requested as a sanitary measure to make provision for the placing of a sewer on Springfield avenue, from Germantown avenue to Cresheim road, for the reason that at present there are some twenty (20) properties on this avenue which discharge filthy house sewage over the surface to the roadway, where foul water lies until washed away by the rains, which is a nuisance, having a tendency to be prejudicial to the public health.

RESOLUTION

Of request to the Philadelphia Rapid Transit Co. to provide for the heating of all street cars during winter weather.

WHEREAS, The unheated condition of the trolley cars in this City during the recent cold weather has endangered the health of the people and has gone far to render of no avail the valuable services of Dr. Edward Martin, Director of Public Health, in promoting the well being of this community; and

WHEREAS, The street cars in New York and other large cities of the country are heated in winter time; now be it

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Philadelphia Rapid Transit Co. is hereby respectfully requested to provide for the heating of all street cars during winter weather so that it will be impossible for the temperature of any car to sink below thirty-two degrees, Farenheit.

APPENDIX No. 107.

OFFICE OF THE MAYOR.

Philadelphia, January 14, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—May I call your attention to the fact that no arrangement has been made for our City to be officially represented at the Louisiana Purchase Exposition at St. Louis this year? I have been in correspondence with the exposition management for some months, and have ascertained that there will be a municipal exhibit known as the "Municipal Improvement Section."

Other cities have already arranged for exhibits in the Model City. Atlanta, Georgia, is to build the railway station; Washington, the Public Library; Kansas City, a casino; Minneapolis and St. Paul, a museum; Detroit, a model home, &c. Arrangements have also been made to build a Town Hall, a Hospital and a Day Nursery.

It has seemed to me that the City of Philadelphia might be able to build in the Model City a small filtration plant of exactly the same style and run in the same manner as the plants we are building in Philadelphia to-day. With this object in view, I have asked Mr. Hill, the very efficient Chief Engineer of the Bureau of Filtration, to make an estimate of the cost of the building of such a plant, which he has sent to me, and I annex hereto a copy of his communication to me on the subject.

It will not do for our City to be behind the other cities in their representation at this great World's Fair in St. Louis this year, and I earnestly recommend that you make a sufficient appropriation to have our City properly represented at St. Louis, and may I suggest that it be attended to at once, as there is not any too much time from now to the opening of the Fair.

Respectfully yours,

JOHN WEAVER,
Mayor.

(Copy.)

Subject: Cost of constructing and operating a model filtration plant at the St. Louis Exposition.

HON. JOHN WEAVER,
Mayor of Philadelphia.

DEAR SIR:—In reply to yours of even date with reference to a model filtration plant to be built and operated at the St. Louis Exposition, I beg to advise you that the probable cost of constructing a model filter on the lines of those which we are using and building for Philadelphia, including

One (1) Settling Basin,
Three (3) Preliminary Filters operating at a
rate of 20,000,000 gallons per acre per day.
Three (3) Final Filters operating at a rate of
6,000,000 gallons per acre per day,

together with the pipes, valves, regulators and other appurtenances, would cost at least ten thousand (10,000) dollars, and probably, in view of the extravagant prices which I understand are being asked for materials and labor at St. Louis at the present time, this price might be increased to twelve thousand (12,000) dollars.

The cost for maintenance and attendants, in order to keep in touch with the condition of the applied and effluent waters and maintain the same standard of efficiency that we are now maintaining at the Roxborough Filters, including the necessary supplies and expenses for a period of six (6) months (the time the Exposition will run) would roughly amount to about \$7,000.00, making a total cost of from \$17,000.00 to \$19,000.00 to carry out this project.

Yours truly,
(Sgd.)

JOHN W. HILL,
Chief Engineer.

GENTLEMEN:—The Committee on Finance, to which was referred the bill, entitled "An Ordinance to authorize and direct the City Controller and City Treasurer to close upon their books the accounts of the Keystone National Bank and the Spring Garden National Bank," respectfully report that they have carefully considered the same, and return the annexed bill with a favorable recommendation and ask its passage.

Philadelphia, November 19, 1903.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I respectfully suggest the passage of an ordinance, copy of which I present herewith, authorizing the closing upon the City's books of the accounts of the Keystone National Bank and the Spring Garden National Bank. Inasmuch as the Receiver of these banks has long since given notice of the final payments of dividends, it

seems useless to longer continue these worthless claims as assets of the City.

The amounts of the claims which would be wiped out by the passage of the ordinance are as follows:

Keystone National Bank	\$328,198 09
Spring Garden National Bank . .	110,262 86
Total	\$438,460 95

In a communication to your Honorable Bodies dated February 5, 1902, I referred more fully to the closing of these accounts by the Receiver of the banks.

Very truly yours,

J. HAMPTON MOORE,
City Treasurer.

AN ORDINANCE

To authorize and direct the City Controller and City Treasurer to close upon their books the accounts of the Keystone National Bank and the Spring Garden National Bank.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the City Controller and City Treasurer be authorized and directed to close upon their books the accounts of the Keystone National Bank and the Spring Garden National Bank, the Comptroller of the Currency having notified the City that the affairs of these two banks had been closed and final payments of dividends have been made.

APPENDIX No. 115.

Philadelphia, January 14, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled "An Ordinance to revise the lines and grades of streets on the City plan between Twentieth street and Twenty-first street and Indiana street and Cambria street, in the Thirty-eighth Ward," beg leave to report that the object of the accompanying ordinance is to strike from the City plan a portion of Woodstock and Lambert streets, south side of Indiana street, and to place on the City plan Stella street, from Twentieth to Twenty-first street. Woodstock and Lambert streets were placed on the plan in 1859, but the property can be more advantageously developed by streets running east and west. The present Woodstock and Lambert streets give depths of seventy feet for lots fronting thereon, which is greatly in excess of lots recently built upon in the neighborhood, most of them being of the depth of fifty feet. We therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), James H. Wilkes, Bennett L. Smedley, Chas. H. Johnson, Frank Weideman, John Klang, Chas. B. Barton, Jos. P. Hughes, G. W. Young, J. H. Shaw, Chas. Seger, Geo. B. Edwards, Samuel Crothers.

AN ORDINANCE

To revise the lines and grades of streets on the City plan between Twentieth street and Twenty-first street and Indiana street and Cambria street, in the Thirty-eighth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized and directed to revise the lines and grades of streets in the territory between Twentieth street and Twenty-first street, and Indiana street and Cambria street, so as to strike from the City plan Woodstock and Lambert streets, from Indiana street southward a distance of one hundred and forty feet eight inches, and to place on the City plan Stella street, from Twentieth to Twenty-first street, of the width of thirty feet, at a distance of one hundred and ten feet eight inches south of Indiana street: *Provided*, That before said plan shall be confirmed the owners of property within the lines of Stella street as proposed to be placed on the plan shall dedicate the same without expense to the City of Philadelphia.

APPENDIX No. 116.

Philadelphia, January 14, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to revise the lines and grades of Proctor road, between Byberry road and Cemetery road, in the Thirty-fifth Ward,” beg leave to report that a portion of Proctor road was laid out and macadamized by the Somerton Improvement Company. It is desired to revise the present existing heavy

grades without cost to the City for land damages. As proposed revision will better the existing grades of the road, and will therefore be of advantage to the traveling public, we therefore report the ordinance with a favorable recommendation.

Frank H. Massey (*Ch'n*), James H. Wilkes, Bennett L. Smedley, Chas. H. Johnson, Frank Weideman, John Klang, Chas. B. Barton, Jos. P. Hughes, G. W. Young, J. H. Shaw, Chas. Seger, Geo. B. Edwards, Samuel Crothers.

AN ORDINANCE

To revise the grades of Proctor road, between Byberry road and Cemetery road, in the Thirty-fifth Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized to revise the grades of Proctor road, between Byberry road and Cemetery road, in the Thirty-fifth Ward: *Provided*, That the owners of property fronting on the said street or road, between the points named, shall first file an agreement satisfactory to the City Solicitor not to claim damages by reason of the said revision of grades.

APPENDIX No. 117.

Philadelphia, January 14, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to strike from the City plan Hamilton street, from Sixteenth to Seventeenth street,” beg leave to report that we have examined and approve the same, and submit for your consideration the annexed ordinance and ask its passage.

Frank H. Massey (*Ch'n*), James H. Wilkes, Bennett L. Smedley, Chas. H. Johnson, Frank Weideman, John

Klang, Chas. B. Barton, Jos. P. Hughes, G. W. Young, J. H. Shaw, Chas. Seger, Geo. B. Edwards, Samuel Crothers.

AN ORDINANCE

To strike from the City plan Hamilton street, from Sixteenth to Seventeenth street.

WHEREAS, By ordinance of Councils Hamilton street has been vacated between Broad and Fifteenth streets and from Fifteenth to Sixteenth street, and from Seventeenth to Eighteenth street, it is closed to the public by reason of the character of its use, it consequently has no longer any value to the City as a street; its maintenance and cleaning, however, entail considerable expense; therefore,

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized to strike from the City plan and vacate Hamilton street, from Sixteenth to Seventeenth street: *Provided*, That the owners of property abutting on Said Hamilton street, from Sixteenth to Seventeenth street, first file an agreement or bond satisfactory to the City Solicitor, indemnifying the City against all damages by reason of the striking of the said street from the City plan and its vacation, and agreeing to be responsible for all costs made necessary by the removal or readjustment of any municipal structures now in said street.

APPENDIX No. 118.

Philadelphia, January 14, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—We, your Committee on Surveys, to whom was referred the bill entitled “An Ordinance to strike Longshore street and Mason street from the City plan and to place Wissinoming street upon the City plan,

and to authorize the enclosing of a portion of Milnor street, in the Forty-first Ward," beg leave to report that the object of striking the above named streets from the plan is to provide a larger tract of ground free from streets, and thus increase the facilities for the enlargement of the plant of Henry Disston & Sons. The striking of these streets from the plan will not materially affect the general public, while the placing of Wissinoming street upon the plan will be a decided advantage. We therefore report the ordinance with a favorable recommendation.

AN ORDINANCE

To strike Longshore street and Mason street from the City plan and to place Wissinoming street upon the City plan, and to authorize the enclosing of a portion of Milnor street, in the Forty-first Ward.

SECTION 1. *The Select and Common Councils of the City of Philadelphia do ordain*, That the Department of Public Works (Board of Surveyors) be authorized to strike from the City plan Mason street, between Longshore street and Disston street, and Longshore street, between Wissinoming street and Milnor street, also to place upon the City plan Wissinoming street, between Knorr street and Unruh street: *Provided*, Henry Disston & Sons, Incorporated, first enter into an agreement satisfactory to the City Solicitor indemnifying the City of Philadelphia against all damages by reason of the striking of said Mason street and Longshore street from the City plan; also, agreeing to reserve to the City of Philadelphia the right to maintain the sewers now constructed in said Mason street and Longshore street; also, agreeing that no buildings shall be erected over the sewers in said streets until the plans for the same shall have been approved by the Director of the Department of Public Works: *Also, pro-*

vided, Before the said Mason street and Longshore street are stricken from the City plan and the said Wissinoming street, placed upon the City plan, the bed of said Wissinoming street, from Knorr street to Unruh street, and also the bed of Unruh street, from Milnor street to the Delaware river, shall be dedicated to the City of Philadelphia.

SECT. 2. Upon the confirmation of the plan striking the said Mason street and Longshore street from the City plan and placing Wissinoming street upon the City plan, as herein authorized, Henry Disston & Sons, Incorporated, are hereby authorized to enclose Milnor street, between Knorr street and Disston street: *Provided*, That they first enter into an agreement satisfactory to the City Solicitor, agreeing that they will not erect any buildings within the lines of the said Milnor street, and that they will, upon passage of an ordinance of Councils to that effect, open for public use the said street without cost or expense to the City of Philadelphia.

APPENDIX No. 119.

RESOLUTION

Of request to the City Controllor to merge into the general fund money now held in the City Treasury for State tax on City loans, and suspending Joint Rule No. 30, of the Select and Common Councils.

WHEREAS, For several years money has been specifically held in the City Treasury awaiting a decision of the Dauphin County court as to the amount of State tax due by the City on certain loans, and as this decision will in all probability not be rendered for some months, therefore,

Resolved, by the Select and Common Councils of the City of Philadelphia, That the City Controllor be requested to merge into the general fund the sum of one hundred and seventy-five thousand (175,000) dollars, now held in the City Treasury (to the credit of Item 4, appropriation to the City Treasurer) for the payment of State

tax on certain City loans, and that Joint Rule No. 30, of the Select and Common Councils, be suspended for the purpose of enabling the Clerks of Councils to present this resolution to the Mayor for his approval or disapproval.

APPENDIX No. 120.

RESOLUTION

Relative to the deficiencies in the various Departments of the City of Philadelphia.

WHEREAS, It is claimed that emergencies have heretofore arisen whereby some of the Departments of the City of Philadelphia have entered into contracts beyond the regular appropriations made to such Departments, whereby a deficiency has occurred therein; and

WHEREAS, The law is very plain that such contracts, strictly speaking, might be considered illegal, null and void; and

WHEREAS, Outside parties, on good faith, have furnished and supplied to the various Departments such articles, goods, materials and labor as were required by them; and

WHEREAS, These Councils are called upon to meet these deficiencies, after having fully provided for all their ordinary estimates; therefore, be it

Resolved, by the Select and Common Councils of the City of Philadelphia, That these Councils will not pay or make appropriations for payment of any sums whatsoever, for goods, materials or labor, which have not been regularly advertised and provided for in the appropriations to the respective Departments of the City, except for bills already due; and that it is the purpose of this resolution to condemn the practice which allows outside parties to furnish goods, materials and labor to the various Departments of the City of Philadelphia beyond the appropria-

tions which shall have been regularly theretofore made; and be it further

Resolved, That it is the intent of these Councils, in making appropriations to the Departments, to live within the spirit and letter of the law—"to pay as you go"—and to use wise discretion and judgment; to the end and intent that an economic administration of the legislative branches of the City government may at all times be administered.

APPENDIX No. 121.

RESOLUTION

Of request to the Director of the Department of Public Works to permit Remington & Sherman Company to lay a private drain at the northwest corner of Beach and East Berks streets.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Director of the Department of Public Works be requested to permit Remington & Sherman Company to lay a private drain at the northwest corner of Beach and East Berks streets, a distance of about sixty feet west on Beach street, for the purpose of carrying off the roof water, and to connect with sewer on East Berks street: *Provided*, That said drain shall be laid without expense to the City of Philadelphia, and under the supervision of the Department of Public Works: *Provided, further*, That the said Remington & Sherman Company shall first agree to pay for the construction of sewer in front of their property when the same shall be laid by the City of Philadelphia.

RESOLUTION

Of request to the Mayor to return to Common Council a certain bill.

Resolved, by the Select and Common Councils of the City of Philadelphia, That the Mayor be, and is hereby requested to return to Common Council, Common Council bill (Appendix No. 108) entitled "An Ordinance to make an appropriation to the various Bureaus in the Departments of Public Health and Charities, Public Works, Public Safety and Supplies, City Commissioners, City Treasurer, Board of Revision of Taxes and Mayor, and to authorize certain transfers from the annual appropriation to the Department of City Treasurer to the Department of Public Works (Bureau of Street Cleaning) and Department of Public Health and Charities (Bureau of Health), and from the Department of Supplies to the Department of Public Health and Charities, for the year 1904," for re-consideration.

APPENDIX No. 128.

OFFICE OF THE MAYOR.

Philadelphia, January 27, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith an ordinance entitled "An Ordinance to make an appropriation to pay deficiency bills in the various bureaus of the Departments of Public Works, Public Safety, Public Health and Charities, Law and Board of Public Education," without my approval as to Item 29, Bureau of Police, Department of Public

Safety, "additional expenses in the matter of quarantining, etc., five thousand and fifty-five (5,055) dollars and ninety-six (96) cents."

My reason for disapproving this item is that it is duplicated in the Department of Public Health and Charities, Municipal Hospital, "Item 19, for fuel, bill of McKee & Cox, coal furnished in 1902, five thousand and fifty-five (5,055) dollars and ninety-six (96) cents." This duplication has probably been caused by the fact that the Municipal Hospital in the reorganization of the Department of Public Health and Charities was transferred from the Department of Public Safety to the other Department, and there has been some question as to whether this appropriation should be made to the Department of Public Safety or to the Department of Public Health and Charities. In disapproving it in the Department of Public Safety I still leave it in the Department of Public Health and Charities, so that it can be attended to in that way.

This will cut down the total appropriations to the Department of Public Safety from two hundred and eighty-eight thousand four hundred and ninety-three (288,493) dollars and twenty-two (22) cents to two hundred and eighty-three thousand four hundred and thirty-seven (283,437) dollars and twenty-six (26) cents, and will reduce the total amount appropriated in the ordinance from one million seventy-four thousand two hundred and thirty-seven (1,074,237) dollars and thirty-six (36) cents to one million and sixty-nine thousand one hundred and eighty-one (1,069,181) dollars and forty (40) cents.

Yours very truly,

JOHN WEAVER,
Mayor.

APPENDIX No. 129.

Surplus for the year 1903.....	\$18,411 31

I am pleased to report a surplus amounting to \$18,411.31 although the estimated results on August 1st last developed a deficit of \$142,343.52. This sum I was constrained to deduct from the amount reported available for appropriation for the year 1904.

It will be seen from the total amount shown of \$8,031,477.81 at the foot of the non-merging column in Table "A" that the surplus reported above, although small, could have been greatly increased had the provisos inserted in ordinances against amounts merging been omitted and an opportunity afforded this Department of reporting moneys available for re-appropriation in the coming year that are otherwise, often unnecessarily, protected in this manner.

Of the amount not merging \$208,105.88 was thus protected, much of which could have been added to the surplus but for the insertion of this proviso.

The available surplus shown could also have been greatly increased but for the non-remittance by the State authorities of the school moneys. Only \$350,000 of the \$832,557.68 due this City having been received at the close of our fiscal year December 31st. Although since that date and prior to the forwarding of this report, February 1, \$250,000 additional has been received by the City Treasurer.

Receipts.

The total revenues from all sources from January 1st to December 31st, 1903, which includes a portion of the Subway Loan negotiated, were \$28,366,389.72.

The tax rate of \$1.85 on the assessed valuation of real estate reported by the Board of Revision of Taxes for the year 1903 was \$911,968,674.00, and yielded \$16,343,957.28.

Of this \$15,694,438.82 (after an allowance in discounts of \$61,300.45 and a return to the city in penalties of \$56,089.30) was collected, leaving a balance as delinquent of \$649,518.46, or about four per cent. of the tax levy uncollected.

The collection of delinquent taxes during 1903 of \$1,502,253.59 shows a decrease from the collections of 1902. There is, however, an increase over the estimated amount reported for collection in the last report of this Department, August 1st, 1903, of \$102,253.59.

I desire to again note the steadily growing increase in the payments to the City by the United Gas Improvement Company from the consumption of gas during the year ending September 30th last. A comparison of the annual receipts since the lease of the Works and the marked increase shown each year is set forth in the following tabulated form.

Payments U. G. I. Co.

Year ending to the close of each September were as follows:

There was a total expenditure during the year 1903 of \$36,039,614.73, being an excess over the receipts of \$7,673,225.01, the latter amount being principally made up of loan moneys and other non-merging balances brought forward from 1902.

The increase in expenditures over that of the year previous was \$1,435,665.80.

A summarized table of the above with balances merging in the general fund for re-appropriation and those carried forward to the year 1904 is appended.

Mandamus.

The attention of your Honorable Bodies is again directed to the large amount paid for writs by mandamus execution during the year just closed.

Owing to the large number of payments during the year 1902 and the probability of an increase during 1903, this Department deemed it advisable to add on January 1st, 1903, \$250,000 to the \$1,250,000 that had previously been set aside, making a total for anticipated payments for 1903 of \$1,500,000.

Even these figures, considered ample at that time, proved inadequate, as the payments were found on December 31st to have reached \$1,891,403.47.

This amount, from a report received from the Law Department, January 20th, 1904, will be exceeded during the present year from the fact that there are already awards filed, from which many appeals have been taken by the City, for the widening and changing of grade on Market, Ludlow, Cuthbert and Twenty-third streets, on Broad street from Moyamensing to Government avenues and for small Parks, aggregating over \$1,000,000. In addition to which certain other amounts are pending through proceedings instituted by the Park Commission for the condemnation of property for Park purposes, unknown to this or the Law Department prior to the filing of the claims, which will make the total mandamus payments for the year fully \$2,000,000.

The following list of mandamuses paid during 1903 is respectfully submitted, attention being especially called to the large outlay for the vacation of streets and the claims paid for injuries from defective highways:

The total number of warrants countersigned for the year 1903 was 84,092, an increase over 1902 of 1,376.

The Funded Debt.

It is very gratifying to report a reduction in the gross funded debt for the year of \$3,024,600. The amount added, during the year, to the funded debt shown on January 1st, 1903, was \$42,000, negotiated by the Sinking Fund of the authorized Subway loan of 1894, and \$4,700 returned by the Farmers and Mechanics National Bank, the fiscal agents of the City, of unclaimed matured loans.

The maturing loans redeemed by the Sinking Fund and by direct appropriation of Councils for serial loans amounted to \$3,071,300.

The net funded debt shows a decrease of but \$1,374,875, the marked difference between the gross and net reductions being caused by a portion of the City securities in the hands of the Sinking Fund having been used in the redemptions shown above during the year.

It is a pleasure to add that among the maturing loans of 1904 will be found the first series \$300,000 of the Subway loan, one-half of which, with similar amounts for each succeeding year, must be borne by the Philadelphia & Reading Railroad Co. until the payment of the last series negotiated, which matures in 1922.

It should be remembered that the entire amount negotiated, \$5,482,000 of this \$6,000,000 Subway loan, is charged in full against the borrowing capacity of the City, which assumed the liability of payment of each series annually at the expiration of ten years from the date of its creation in 1894. Therefore commencing with 1904 the City will get credit for the full amount of each series, to wit, \$300,000, although subjected to an outlay of but \$150,000, by reason of the reimbursement of a like amount to the City by the Philadelphia & Reading Railroad Co.

There are authorized loans awaiting negotiation amounting to \$1,918,000. Of this, \$1,400,000 is of the \$11,200,000 loan of June 17th, 1898, and \$518,000 of the Subway loan of April 4th, 1894.

It is not probable that more than \$18,000 of the latter loan will be required to fully meet all payments for damages to properties along the line of the Subway, thus bringing the total cost of this valuable improvement to \$5,500,000, or \$500,000 within the original estimate made in 1894. The necessity for the further negotiation of the remainder of this loan then no longer existing, it will be highly proper to recommend to your Honorable Bodies

the advisability of dispensing with this liability by canceling the remaining series.

This increase is largely accounted for by the fluctuations in the stock of the Philadelphia & Erie Railroad Co., owned by the City of Philadelphia, the difference in the market value of the 45,000 shares between January 1st, 1903, and 1904 being \$495,000; also by the reduction of the cash in the Treasury of \$7,673,225.01 and by the reduction of Sinking Fund securities of \$1,649,725.

APPENDIX NO. 133.

OFFICE OF THE MAYOR.

Philadelphia, February 9, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—In accordance with your Resolution passed on February 4, 1904, I have the honor to return herewith an ordinance entitled "An Ordinance to permit Gimbel Brothers to lay an eight inch water main for fire purposes in Schell and Ludlow streets."

Very truly yours,

JOHN WEAVER,

APPENDIX NO. 134.

OFFICE OF THE MAYOR.

Philadelphia, February 18, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN:—I return herewith without my approval an ordinance entitled "An Ordinance to strike from the City plan Hamilton street, from Sixteenth to Seventeenth streets."

I referred this Ordinance to the Department of Public Works, who referred it to the Chief Engineer of the Bureau of Surveys, and the following is a copy of a report that I have from the Department of Public Works thereon:

"HON. JOHN WEAVER,
Mayor of Philadelphia.

DEAR SIR:—I submitted the above named ordinance to the Chief Engineer of the Bureau of Surveys, who reports thereon as follows:

'I return herewith Ordinance to strike from the city plan Hamilton street from Sixteenth to Seventeenth streets, with the report that Hamilton street between Fifteenth and Nineteenth streets is upon the City plan fifty feet wide, and from Nineteenth street to Pennsylvania avenue sixty-six feet wide.

'This street was paved in connection with the Pennsylvania avenue Improvement with granite blocks upon a concrete base, and is now in good condition. It has two large water mains running longitudinally through it.

'The result of this Ordinance will be the closing of one block of a public street in the business section of the city, and a practical relinquishment, to private individuals, of a strip of ground fifty feet by three hundred and ninety-six feet.

'I enclose a tracing showing conditions.'

Very respectfully,

PETER E. COSTELLO."

It will be observed that there are, in the bed of this street, two water mains, one six inch and the other ten inch. I am informed that the ten inch water main was laid for fire service, to protect properties along the line of Hamilton street.

Mr. William Sellers has stated to me that the bed of the street will be useless to his firm if they have to maintain the water mains in their present location or in that part of the bed of Hamilton street that is to be vacated. And while it might be possible to cut them out of this square and run them down other streets and re-connect them again, it is apparent upon a glance at the plan prepared by the Survey Department and sent to me that it will only be a question of time, if this section of Hamilton street is vacated, when those sections between Fifteenth and Sixteenth streets and Seventeenth and Eighteenth streets shall be vacated.

Hamilton street is open, and has been for many years, as a public street, from a point east of Broad street to

Pennsylvania avenue, with the exception of one block between Broad street and Fifteenth street, which was stricken from the City plan in 1902, and is now part of the Baldwin Locomotive Works.

In looking up the history of that matter I find that Messrs. Burnham, Williams and Company paid a considerable sum to the City of Philadelphia in the way of releasing the City from their claim for damages arising out of the construction of the subway and as to which a road jury had given an award of upwards of \$27,400.00, and from which award Burnham, Williams and Company had appealed, claiming that they were damaged in excess of one hundred thousand dollars. And it was pending this appeal that the matter was settled by Burnham, Williams and Company releasing their claim against the City and the City vacating this street from Broad street to Fifteenth street.

It is an exceedingly difficult matter to determine where the public interest appears to be in conflict with the settled policy of the administration to do everything they can to help, protect and foster the manufacturing industries of the City. It was made more difficult by reason of the fact that, as Mr. Sellers states, the street in this immediate vicinity has become more of a private roadway for storage purposes and the passage of a single team at a time, belonging to the manufacturers in the particular district, than a public street. This would be a reflection on the administration of the city government were it not for the fact that in their desire to help the manufacturers adjoining the street they have tacitly permitted the use thereof because there has been no objection on the part of other citizens.

I further think that it would be a distinct disadvantage to have a solid block nine hundred feet long, as it is on the west side of Broad street and the east side of Fifteenth street, from Callowhill street to Spring Garden street, without any break through the center such as Hamilton street afforded, in which fire engines might be able to do very efficacious work in case of a conflagration existing in the centre part of the block; and for the further reason that a large fire is more likely to be stopped at a street than in the center of a block of buildings.

For these various reasons I am compelled to withhold my approval of this ordinance.

Respectfully,

JOHN WEAVER,
Mayor.

APPENDIX No. 148.

OFFICE OF THE MAYOR.

Philadelphia, March 12, 1904.

To the Presidents and Members of the Select and
Common Councils of the City of Philadelphia.

GENTLEMEN :—I transmit herewith copies of two letters from F. L. Hand, Chief of the Bureau of Water, one dated March 9th and one March 10th, addressed to the Director of the Department of Public Works, together with a letter from the Director of Public Works to myself dated March 11th, 1904. The letters have reference to the breaking of Flat Rock Dam and its effect upon the water supply in the northwest section of the City, including Manayunk, Roxborough, Germantown and Chestnut Hill. I ascertain from the Director of the Department of Public Works that this break, unless it is attended to, would prevent the City furnishing water to these districts unless it had a temporary pumping plant to pump water from the river into the pump wells at the station. As you will see by the correspondence the temporary pumps would cost about ten thousand (10,000) dollars, and I authorized this expenditure as it was simply impossible to send a message getting an appropriation from your Honorable Bodies in time to prevent the stoppage of the water supply. I realize the fact that this is not in accordance with the resolution that you recently passed, but I assume that you did not intend it to cover such emergencies as this where the supply of water to a large part of our community will be entirely stopped unless we take immediate action.

May I ask your Honorable Bodies to appropriate ten thousand (10,000) dollars to the Bureau of Water, Department of Public Works, to meet this expense?

Yours very truly,

JOHN WEAVER,

Mayor.

Philadelphia, March 9, 1904.

PETER E. COSTELLO, Esq.,

Director, Department of Public Works.

DEAR SIR:—Relative to the breaking of the Flat Rock dam and its effect upon the water supply in the northwest section of the City, including Manayunk, Roxborough, Germantown and Chestnut Hill, I beg to say that until repairs are made to the dam, which will require from two to four weeks, it will be impossible to operate the engines at the Roxborough Works except by erecting a temporary pumping plant to pump water from the river into the pump wells at the station.

To do this will be required three 10-inch centrifugal pumps, 100 feet of 12-inch riveted section pipe, 100 to 200 feet of 10-inch spiral riveted discharge pipe and fittings for same; also lumber for pump platform, housing, etc.

There is a supply for about four days in the reservoir, and if the centrifugal pumps are not erected all of the section of the City named above will be entirely deprived of water.

I therefore respectfully request permission to purchase the above named and such other materials as may be needed, without delay.

Yours truly,

(Signed)

F. L. HAND,

Chief of Bureau of Water.

Philadelphia, March 10, 1904.

PETER E. COSTELLO, Esq.,

Director, Department of Public Works.

DEAR SIR:—I beg to report as follows in regard to centrifugal pumps with which to keep up the supply of water which it is threatened will be cut off by the break in the dam at Flat Rock.

I find we have one pump on hand which can be run by an engine now used for running the machine shop at Belmont Station; also, that we can borrow an engine and pump from Mr. George C. Dietrich.

Upon inquiry of the Morris Machine Works, at Baldwinsville, N. Y., the largest manufacturers of centrifugal pumps in the country, I find they have nothing in stock which would be of any use to us.

Messrs. Cramp & Sons state they have nothing but a 20-inch pump with a compound engine attached, which would be too large and cumbersome to handle, as well as too expensive.

Upon inquiry of the Southwark Foundry and Machine Company, I find they have two rotary pumps which were built for an eastern company, but which we can secure at a cost of \$2,800 each. They are motor driven, and will necessitate the purchase of two motors, at a cost of about \$580 each.

The Westinghouse Company of Pittsburg finds it has two such motors in stock. Current to drive them can be taken from the Norristown Power House at Shawmont.

The cost of the pumps and motors, together with lumber for a house over them will be approximately \$10,000. The larger pumps could remain until the permanent repairs are completed or a new dam built.

I respectfully advise that these pumps and motors be immediately procured.

Yours very respectfully,

(Signed)

F. L. HAND,

Chief of Bureau of Water.

March 11, 1904.

HON. JOHN WEAVER,
Mayor of Philadelphia.

DEAR SIR:—I herewith transmit report from the Chief of Bureau of Water, relative to the break in Flat Rock dam and the necessary steps which have been taken to protect the water supply of the City.

The Chief of Bureau of Water has been authorized to accept the offer of Mr. George C. Dietrich, who kindly offered the use of one pump to meet the emergency and to purchase from the Southwark Foundry and Machine Company two rotary pumps at a cost of \$2,800 each and from the Westinghouse Electric Company two motors to drive same at a cost of \$580 each.

As per the report of the Chief, the purchase of the engines, motors, temporary house to cover same, foundations, etc., will involve a cost of approximately \$10,000. There is no appropriation available to meet this expense and the necessity of the case required the Department to act promptly and I would therefore request that you ask Councils to provide funds for the above work when the bills become due.

Yours truly,

PETER E. COSTELLO,

Director.
